Industry, Innovation, and Infrastructure

Industry, Innovation, and Infrastructure

 **Understand Goal 9: Industry, Innovation, and Infrastructure**

 02:41

<https://youtu.be/HjX4rIMP-eg>

- Answer the following questions after watching the video.

1. What is the video about?

2. Define infrastructure and give examples of infrastructure we find around us.

3. Understanding the relationship between building infrastructure and industry and innovation is important to understanding SDGs #9. Choose one of the examples from your answer in question 2 and explain the relationship it has with industry and innovation.

Industry, Innovation, and Infrastructure

4. The video uses examples from different countries to show how infrastructure affects our daily lives. Fill in the table below about the impact of infrastructure from the video.

	Impact of infrastructure
South American countries (2017)	
Chinese province of Sichuan (2008)	
Kenya	
India	

5. Raising awareness about the importance of building infrastructure where they are needed is one step toward making progress in industry and innovation. Write a promotional post on SNS that informs the concept of infrastructure, its importance, and the need for global cooperation. Please include the following in your writing:

- * Concept of infrastructure
- * Impact of infrastructure on our lives
- * Impact of infrastructure on industry and innovation
- * Why we need to work together for balanced infrastructure development
